## **8th National Frontiers of Engineering (8NatFOE)**

---

**Date: September 5-6, 2014**

**Time: 9:30 AM to 5:30 PM**

**Venue: IIT Gandhinagar**

**Target group: Faculty members**

**Register At: [www.iitgn.ac.in/kn](http://www.iitgn.ac.in/kn)**

**Registration closing date: September 1, 2014**

---

This is part of a series of national symposia on frontiers of engineering (promoted by INAE) to create a forum where eminent and young engineering professionals are invited to present and discuss on pioneering technical work and leading-edge research across a range of engineering fields of national importance. This provides an opportunity for healthy growth of engineering education, industry, research and development in our country. The first NatFOE was organized in the year 2006. Seven such symposia have been completed successfully. Various themes covering a wide range of topics of national importance have been discussed by eminent personalities in the respective fields. Keeping the objective and goal of all the above symposia, the Eighth National Symposium on Frontiers of Engineering (8NatFOE) is planned to provide an excellent opportunity to share ideas and information with bright, young and eminent engineers. The current symposium is with "Safety" as its main theme and the four sub-themes are: Earthquake engineering and safety; Fire and process safety; Road safety and Cognition and safety.
