

**Knowledge Network of
Indian Institute of Technology, Gandhinagar
Under TEQIP-II Initiative (MHRD, Govt. of Gujarat)**

**Workshop on
“Modernization of Library Services in Engineering
Colleges”**

Date: 13-14 October, 2014 (2-days)

Time: 10.00am to 6.00pm

Venue: L-block, IIT Gandhinagar

Target group: Library Staff, Faculty In-Charge of Library,
Administrators connected with Library matters.

Register At: www.iitgn.ac.in/kn

Dead line: 07th October, 2014

“The unprecedented developments in information and communication technologies and their application in libraries of all types at different levels have made a huge impact on the way how the present engineering libraries are expected to operate and provide services. The role of libraries starting from identification of relevant information sources to delivery of services to their core community of users ie, faculty and students has undergone a sea change. Considering these major changes taking place within the domain of library services and increasing expectations of user community, this workshop will make an attempt to address the issues facing the engineering libraries covered under the program. To begin with, we will present the current trends and developments in the field of engineering information and libraries. Then will discuss whole range of issues & process involved in identification, acquiring, processing, organizing and providing seamless access to both print and digital resources. Suggest tools and technologies required for modernization of engineering libraries. Will share and recommend the best practices and suggest the methods of providing proactive services. We will also discuss the competencies and skills required to efficiently manage day-to-day services of a library. At the end, offer guidance required to manage or address the issues faced by each individual engineering college libraries. Most part of the workshop will be based on discussions, sharing experiences and best practices, suggesting guidelines and sharing useful documents. This will be offered by the Library Staff at IITGN”
