

**Knowledge Network of
Indian Institute of Technology, Gandhinagar
Under TEQIP-II Initiative (MHRD, Govt. of Gujarat)**

**Workshop on
ICT Infrastructure: Towards a Digital Network**

Date: 23/05/2014 to 24/05/2014 (2-days)

Time: 10:00 am reporting time on 23rd May 2014

Venue: L-block, IIT Gandhinagar

Target group: Faculty and staff members

Register at: www.iitgn.ac.in/kn

Deadline: 20th May 2014

In today's world, role of technology in communication has become a major contributing factor towards success of an academic institute. Needless to say that information sharing over a digital network facilitates effective communication in a seamless manner. In this workshop, we will explore the components which are essential for developing a robust ICT infrastructure. These will include various aspects of ICT infrastructure like setting up networks servers and firewalls, implementing single sign on, configuring google apps etc. Apart from the lecture from eminent experts, the workshop will also aim to provide a "hands-on" learning experience to the attendees through lab sessions.
